

INTERNET SERVICE REGULATIONS

WIRELESS CONNECTION

Wireless service (sponsored by “Comune di Modena” and provided by “SATCOM spa”) **is free, except for registration, that is 2,00 Euros.**

A valid document of identity (Identity Card, Driver Licence or Passport) is needed.

People under the age of 18 must be accompanied by a parent with ID document.

Once registered, you will be given a Username and a Password to log in, **if you lose your password, there is a charge of 2,00 Euros for a new one.**

Portable devices can be connected in the following areas: **Piazza Grande Square**, the cloister of the **Delfini Library**, **Storchi Theatre**, **Novi Sad Park**, the **Braglia Football Stadium**, the **Public Ducal Gardens**, **Palazzo dei Musei** (Municipal Museums), **La Tenda** in Viale Molza, **Crocetta Library** (via Canaletto 108) and **Rotonda Library** (via Casalegno 42).

The speed of data transmission varies from 1 Mbit/sec. to 54 Mbit/sec. (according to 802.11x protocol) depending on the distance of your portable device from the Access Point and network congestion.

SYSTEM REQUIREMENTS:

- ✓ WINDOWS 98,98 SE, 2000, ME, XP, VISTA or MAC OS 8.6 e OS 9.1, MAC OSX or LINUX
- ✓ Processor: Pentium 166Mhz or higher
- ✓ RAM: 32MB or higher
- ✓ Standard IEEE 802.11g/b Wi-Fi interface
- ✓ TCP/IP protocol (DHCP must be enabled on client machines)
- ✓ Internet browser

WE DO NOT PROVIDE:

- ✓ any technical support
- ✓ socket (to connect or recharge portable devices)
- ✓ printing service

USER AGREEMENT:

- ✓ “Comune di Modena” is not liable for contents and quality of the information found in the web as well as for network problems;
- ✓ You will not break privacy and copyright laws; you shall be solely responsible for your actions;
- ✓ You will not cause harm or damage other users, through spamming, chain letters, viruses or other.

THESE TERMS AND CONDITIONS ARE TO BE READ AND ADHERED TO FULLY BY ALL USERS

i-modena is the SSID (Service Set Identifier) of the Wireless Network (provided by “Comune di Modena”), that portable device must recognize to connect to wireless service.

1) NETWORK SETUP

Set TCP/IP protocol in “DHCP Client” mode to get IP address from **i-modena** (ES. **WINDOWS XP: Control Panel _Network Connections_ Properties. Make sure that “Obtain an IP address automatically” and “Obtain DNS server address automatically” options are activated. If not activate both of them.**)

2) CONNECTION

Activate Wi-Fi interface and find **i-modena** wireless network, than press “connect”. Once connected to the Access Point **i-modena** you will get the IP address that defines each user and enables data sharing. Open Internet Browser and enter the Username and Password you got upon registration.

For correct functioning of the service you have to allow Pop-ups from the authentication page and enable Javascript in your browser.

WARNING!

Communication between the Access Point and your portable device is not encrypted.

SUGGESTIONS:

- ✓ Always protect your Pc with effective anti-virus and firewalling software.
- ✓ Block file and folder sharing to prevent them to be violated.
- ✓ Make sure that money transfer or private information (passwords, credit card number...) are made/shared through HTTPS protected connections. In any other case we suggest you NOT TO share your personal data through **i-modena** wireless service.
- ✓ **We advise AGAINST personal data transmission** (such as: credit card number, password, or other).
